ANNUAL CCR FUGITIVE DUST CONTROL REPORT**

Reporting Year: 4<sup>th</sup> Quarter 2016 through 3<sup>rd</sup> Quarter 2017

Signature: *Dianna Nelson*  
Name

*Director, Project Engineering*  
Title *Decommissioning & Renovation*  
*13 NOVEMBER 2017*

This Annual CCR Fugitive Dust Control Report has been prepared for the Wood River Power Station in accordance with 40 CFR 257.80(c). Section 1 provides a description of the actions taken to control CCR fugitive dust at the facility during the reporting year, including a summary of any corrective measures taken. Section 2 provides a record of citizen complaints received concerning CCR fugitive dust at the facility during the reporting year, including a summary of any corrective measures taken.

**Section 1 Actions Taken to Control CCR Fugitive Dust**

In accordance with the Wood River Power Station CCR Fugitive Dust Control Plan (Plan), the following measures were used to control CCR fugitive dust from becoming airborne at the facility during the reporting year:

CCR Activity	Actions Taken to Control CCR Fugitive Dust
Management of CCR in the facility's CCR units	Wet management of CCR materials in CCR surface impoundments.
	Water areas of exposed CCR in CCR units, as necessary.
	Naturally occurring grass vegetation in areas of exposed CCR in CCR surface impoundments.
Handling of CCR at the facility	CCR handled during closure activities of CCR surface impoundments remains conditioned during handling.
	Good housekeeping measures, such as sweeping or wetting, as needed.

Based on a review of the Plan and inspections associated with CCR fugitive dust control performed in the reporting year, the control measures identified in the Plan as implemented at the facility effectively minimized CCR from becoming airborne at the facility. No revisions or additions to control measures identified in the Plan were needed.

The Wood River Power Station was permanently retired on May 31, 2016. Once the facility has completed decommissioning activities, the Plan will be amended to remove CCR fugitive dust control measures associated with CCR activities/systems that are no longer occurring/in operation.

**Section 2 Record of Citizen Complaints**

No citizen complaints were received regarding CCR fugitive dust at Wood River Power Station in the reporting year.
